To record information furnished by [redacted] regarding a scheduled interview concerning captioned matter.

SYNOPSIS AND DETAILS:

At 4:15 p.m. on September 30, 1976 [redacted] telephonically advised me that William Gardner of the Civil Rights Division had called him at approximately 4 p.m. on September 30 to request him to appear for an interview concerning surreptitious entries and the Weatherman investigation. Gardner told him that the interview would not be one requiring an advice of rights but one in which [redacted] would be requested to furnish general knowledge. [redacted] said that he told Gardner he had no knowledge of surreptitious entries and he would appear for the requested interview. The interview is scheduled for 1 p.m. on Monday, October 4, 1976, in Room 1038 in the Civil Rights Division space located at 550 11th Street, Washington, D.C.

62-117166-80X 2

[redacted] said that he had previously called Mr. Adams and Mr. Adams had referred him to me concerning this matter. He said that it was his understanding that matters that might be classifiable could be discussed with Department Attorney Gardner. I told [redacted] that I agreed and further that we had recently been furnished a copy of a letter from the Attorney General to Assistant Attorney General Pottinger indicating the Attorney General's intention to authorize Mr. Pottinger to receive and use classified information for purposes of the surreptitious entry investigation.

EX 104

To report that Special Agent (SA) [REDACTED] of this Division was interviewed by William L. Gardner, Chief, Criminal Section, Civil Rights Division, regarding captioned matter.

SYNOPSIS AND DETAILS:

On 9/30/76, SA [REDACTED] of this Division was telephonically contacted by William L. Gardner, Chief, Criminal Section, Civil Rights Division. Mr. Gardner indicated he desired to confer with SA [REDACTED] at a time convenient to both regarding the discovery of break-in documents in the New York Office. (Note that by memorandum dated 3/19/76, copy attached, SA [REDACTED] reported an interview with SA [REDACTED] SWP case Agent, New York Office. On 3/17/76, SA [REDACTED] advised that the files in the New York Office contain approximately 25 volumes of documents revealing information concerning break-ins conducted by the New York Office from the 1940's through 1975.) On 9/30/76, information concerning Mr. Gardner's request was communicated to Deputy Assistant Director James C. Farrington. On 10/1/76, I instructed [REDACTED] to meet with Mr. Gardner and answer questions concerning this matter.

SOCIALIST WORKERS PARTY, et al. v.
ATTORNEY GENERAL, et al.
(U.S.D.C., S.D.N.Y.)
73 CIV 3160 (TCP)

PURPOSE:

To advise of a court order in this civil action to produce additional FBI materials regarding plaintiffs, including documents concerning physical entries, and to advise of the existence in the New York Office of 25 volumes of documents concerning such entries conducted by the New York office from the 1940s through 1975.

SYNOPSIS:

Plaintiffs in captioned civil action recently requested that the FBI produce 26 additional items in discovery in this lawsuit, including documents concerning physical entries directed against plaintiffs. On 3/10/76, an order was entered in this civil action specifying that on or about 3/24/76, Federal defendants are to respond to all outstanding requests for documents and that the trial of this civil action will commence on 7/1/76. The AUSA handling this civil action requested that the FBI attempt to obtain from the Department an early decision concerning how the Department's new guidelines will affect the FBI's investigation of plaintiffs.

Legal Counsel to Mr. J.D. Adams

RE: SOCIALIST WORKERS PARTY, et al. v. ATTORNEY GENERAL, et al.
(U.S.D.C., S.D.N.Y.) 73 CIV 3169 (TGP)

Intelligence Division, in obtaining information requested by plaintiffs, canvassed all field offices concerning physical entries directed against plaintiffs and obtained documents revealing that from 1/15/63 through 7/1/66, the New York Office conducted 93 physical entries against Socialist Workers Party (SWP) and Young Socialist Alliance (YSA). New York Office possesses approximately 25 volumes of documents concerning all physical entries conducted by that office from the 1940s through 1975. Intelligence Division advised additional information requested by plaintiffs will be available to furnish to the USA, SDNY, by 3/24/76.

RECOMMENDATIONS:

1. That upon receipt of information and documents from INTD concerning additional items requested by plaintiffs, Legal Counsel Division correspond with USA, SDNY, and the Department.

2. That INTD furnish pertinent information to the Department concerning our investigation of YSA and SWP in an effort to obtain an early decision concerning the effect of the new guidelines on the FBI's investigation of plaintiffs;

3. That INTD determine whether additional documents concerning physical entries conducted by this Bureau exist in other field offices and at FBIHQ and advise the Department concerning the existence of any such documents as well as those in New York Office.

RE: SOCIALIST WORKERS PARTY, et al. v. ATTORNEY GENERAL, et al
(U.S.D.C., S.D.N.Y.) 73 CIV 3160 (TGP)

DETAILS:

Plaintiffs, the Socialist Workers Party (SWP), its youth group the Young Socialist Alliance (YSA), and fifteen individual plaintiffs, filed captioned civil action during 7/73, alleging that defendants, the FBI, other Governmental agencies and officers, have denied them constitutional rights as a political party. They seek substantial damages as well as broad injunctive relief. On 1/7/75, the court in captioned civil action ordered us to produce "all files relating to everything gathered about the plaintiffs, including the results of surveillance conducted of the SWP or the YSA, and documents relating to the purpose of such surveillance." Subsequently, the Department, through the USA, SDNY, released a substantial number of FBI documents in discovery in this civil action. Items released included SWP Disruption Program documents, semi-annual national SWP and YSA reports, investigative reports and certain letterhead memoranda concerning individual plaintiffs and Counterintelligence Program (COINTELPRO) New Left and COINTELPRO Communist Party, USA documents concerning plaintiffs.

By letter dated 11/5/75, Thomas J. Cahill, USA, SDNY, enclosed a list, copy attached, of 25 additional items which plaintiffs requested from the FBI in discovery in this civil action. Documents requested included those pertaining to any "intelligence gathering burglaries" directed against plaintiffs. By letter dated 12/1/75, copy attached, the Director informed Mr. Cahill which of the 25 items this Bureau is willing to produce in this lawsuit and which we object to producing on grounds of privilege or relevancy.

On 3/16/76, AUSA Steven J. Glassman, SDNY, who is handling this civil action, advised that on 3/16/76, the court entered an order in this lawsuit, copy attached, specifying that on or before 3/24/76, the Federal defendants will respond to all outstanding requests for documents and that the trial of this civil action will commence on 7/1/76. AUSA Glassman emphasized that every effort should be made to have materials requested by plaintiffs furnished to him by the above date. The FBI should furnish information consistent with the Director's letter to Mr. Cahill dated 12/1/75. Privileged and administrative data, including the names of Bureau personnel, should be deleted from the

documents we are now producing. Both a true copy of the document as it appears in Bureau files as well as a copy with deletions should be furnished to the USA, SDNY. Of course, only copies with deletions will be furnished to plaintiffs.

AUSA Glassman was informed that the Department's guidelines concerning FBI security investigations will be implemented in the near future and that these guidelines could affect the FBI's investigation of plaintiffs. Noting that the plaintiffs are attempting to obtain an injunction in this civil action, AUSA Glassman felt it would be extremely helpful to have the Department apply the guidelines to the investigations in question as soon as possible. If a decision has not been made by the time of trial, he stated, the court may "take it upon itself" to apply the guidelines to plaintiff organizations. From the Government's point of view, such action would be undesirable. Thus, AUSA Glassman requested that the Bureau bring the facts of the investigations in question to the Department as soon as possible.

INTD has observed that plaintiffs have requested a substantial amount of additional materials and that a great number of man hours have been and are being expended to obtain and process these items. They, however, feel that the items requested will be available to furnish to the USA, SDNY, by 3/24/76.

INTD also observed that in obtaining information requested by plaintiffs, they canvassed all FBI field offices in an effort to locate documents relating to any FBI "intelligence gathering burglaries" directed against plaintiffs. Los Angeles furnished documents concerning a physical entry and microphone installation directed against the residence of plaintiff James P. Cannon on 4/30/60. New Haven furnished documents concerning a physical entry directed against the residence of a SWP organizer on 3/19/60. New York furnished documents revealing that between 1/15/60 and 7/1/66, 93 physical entries were directed against SWP and YSA offices in New York City.

On 3/17/75, SA [REDACTED] SNP Case Agent, New York Office, advised files of the New York Office contain approximately 25 volumes of documents reflecting information concerning all physical entries conducted by the New York Office from the 1940s through 1975, not simply those against SNP and YSA. The documents in question are not serialized but are filed in chronological order in SAC folders. Concerning each physical entry, the folders typically contain a memorandum from a New York SA to the SAC requesting authority to conduct the entry, a handwritten note identifying the official at FBIHQ who authorized the entry, and a memorandum describing the results of the entry. Agents who participated in each entry are identified.

To advise of the DOJ requested appearance of Supervisor [redacted] before the Federal Grand Jury, New York City, on 12/17/76.

DETAILS:

At 12:25 p. m. on 12/16/76, INTD Supervisor [redacted] was telephonically in contact with Attorney Steven Horn, Civil Rights Division, DOJ. Mr. Horn had attempted to contact Supervisor [redacted] at 12 noon and left a message that his call be returned.

Mr. Horn advised that Supervisor [redacted] presence was requested on the morning of Friday, 12/17/76, before the Federal Grand Jury convening in New York City, New York. [redacted] was asked to appear in Room 3402, 26 Federal Plaza, at 9 a. m. Friday morning for a pre-appearance briefing.

Horn was apologetic for the short notice and added that the appearance before the Grand Jury should be brief. He declined to be specific but stated that the requested testimony concerned [redacted]

[redacted] was the FBI Liaison for the purposes of that review. REC 61

Supervisor [redacted] will travel by 7 a. m. 12/17/76, shuttle to New York City for the requested appearance before the Grand Jury, and anticipates returning on the same date to Washington, D. C. The Federal Grand Jury convening in New York is inquiring into surreptitious entries and/or other investigative techniques allegedly utilized by the FBI in conjunction with domestic intelligence investigations by the New York Office.

Prosecuting Agent

BY ROBERT L. JACKSON
and RONALD J. OSTROW
Times Staff Writers

WASHINGTON—Atty. Gen. Griffin B. Bell has expressed reservations about prosecuting FBI break-ins, giving hope to FBI officials that he will reject recommendations for indictments, it was learned today.

Bell also has told FBI officials that he hoped the bureau would move away from concentrating on past abuses, he said.

These sources said Bell had remarked that the public should understand that the break-ins were aimed at capturing terrorist fugitives from the Weather Underground Organization.

Bell has reached no decision on the two-week-old recommendation for indictments, which he has also asked the Justice Department's legal division to review. But his remarks have indicated sympathy to the problems faced by law enforcement authorities in gathering intelligence on terrorists, some associates said.

In the meanwhile, FBI Director Clarence M. Kelley, in a statement approved by the Justice Department, branded part of the recommendations Thursday in The Times as "calculated leaks that damage the American system of justice."

Bell did not deny the accuracy of the reports, but in a statement:

"This action by these nameless sources is reprehensible and not only injurious to the morale of all FBI employees but also incalculable damage to the FBI officials and to the public whose names were prominently mentioned. It is certain that all fair-minded people are shocked by these calculated leaks that damage the American system of justice."

The Times story said that a team of Justice Department attorneys had submitted a written recommendation for indictments against six or more past and present FBI officials for break-ins, mail-openings and wiretapping.

The recommendation was also attacked Thursday, in a column in The Times, by several attorneys for FBI officials who have figured in the lengthy grand jury indictment of "surreptitious entries."

New York attorney Paul Windels, for example, said that the break-ins to gather intelligence on allegedly subversive organizations were a long-established practice.

"I don't want to talk about winding up by prosecuting FBI officials. It is nonsense," Windels said, adding that "every day for the past 25 years had to be aware that intelligence was obtained."

B. Solerwitz, who has represented 47 FBI officials and has immunity as prosecutors sought evidence against them, cited a Watergate-era court ruling in which he argued that the break-in prosecutions were doomed.

authority of another to authorize (their) actions. Edward P. Morgan, Washington counsel for the former FBI Agents, said he expected Bell to reject the recommendation from the Justice Department team led by former Asst. Atty. Gen. J. Stanley Pottinger. Bell will lean to the view that the current attorney general will decide that the prosecution is not in the public interest, Morgan said. Morgan said that he had seen a letter from E. Petersen, a former career department attorney who now works as an assistant attorney general, recalled that the Justice Department became aware in the early 1960s of the wiretapping and bugging by the FBI. He noted that the department took no action against officials involved in the wiretapping and bugging, and that the FBI in civil suits had argued that the fact of the department didn't constitute a response.

Lawyers for FBI Agents Need Clearance for Talks

by Margaret Gentry
Associated Press

FBI agents under investigation for allegedly committing burglaries have been ordered not to talk to their lawyers about their case until the lawyers are cleared to receive secret government information.

Justice Department sources have confirmed that the department's Civil Rights Division is investigating at least 20 FBI agents involved in intelligence-gathering burglaries during the past five years. The probe involves possible violations of the civil rights of American citizens.

The FBI agents were given the instructions about their lawyers in a teletyped message from FBI headquarters last Friday, according to Jack B. Solerwitz, an attorney representing some of the FBI men.

The restriction suggests that the Justice Department probe involves break-ins that the FBI considers sensitive national security matters.

"My clients have been told they are the targets of an investigation of surreptitious entries," Solerwitz said in an interview Wednesday.

He declined to say how many of the agents he represents or to identify them. But some are assigned to the FBI's New York office, he said.

Solerwitz said department investigators telephoned the

FBI men at their homes during the weekend of June 12 to inform them they were under investigation and that they would be advised of their right to keep silent and to retain an attorney.

A teletyped message from FBI headquarters June 16 advised the agents to hire private lawyers, Solerwitz said.

"The Justice Department has made it clear to these agents that they will not be provided counsel" by the government, he said. Under current policy, the department refuses to provide lawyers to defend employees in criminal investigations.

Solerwitz is representing the agents for free in his capacity as attorney for the Federal Criminal Investigators Association.

The FBI message June 18 instructed the agents not to disclose details of the case until their attorneys get security clearances. Solerwitz said he doesn't know how long it will take to get the clearance. Such clearances normally are processed through the FBI and the department.

"I have no doubt their investigation would not terminate with these agents," he said. "Any prosecutor would go higher."

It could not be determined which or how many organizations or individuals may have been burglarized by the FBI during the past years.

The five-year period is sig-

nificant because statute of limitations precludes federal prosecutions for civil rights offenses more than five years old.

The disclosure that break-ins were conducted since 1971 contradicts the FBI's insistence that burglaries against domestic targets ended in 1966. The Socialist Workers Party was one target of FBI burglaries. FBI documents released to the party in connection with a lawsuit against the bureau disclosed that agents burglarized party offices or homes of members 94 times from 1960 through 1966.

Department sources have said that civil rights investigators examined the hundreds of burglaries conducted before 1966 but concluded that the statute of limitations bars any prosecutions.

In another development, department investigators have expanded their probe of financial kickbacks within the FBI to include other abuses of power by past and present FBI officials, it was learned. The nature of the other alleged abuses could not be determined.

Michael Shahcen, head of the department's Office of Professional Responsibility, which is conducting the probe, said he expects to deliver his findings and recommendations to Attorney General Edward H. Levi within a few weeks.

Subpoenas Upheld In Burglary Probe Involving FBI Men

By Warren Brown
Washington Post Staff Writer

NEW YORK, Sept. 3—A federal judge denied a motion here today that could have jeopardized the Justice Department investigation of allegations that FBI agents committed illegal burglaries within the last five years.

U.S. District Court Judge Henry Werker denied a motion to quash grand jury subpoenas for two former FBI agents involved in the probe because, he said, it was sought prematurely.

"If it had been successful, the motion would have shut down our case until we could have reversed it," Assistant Attorney General J. Stanley Pottinger said after the ruling. Pottinger heads the Justice Department's Civil Rights Division, which has been conducting the eight-month investigation.

Although the motion, filed by attorney Jack B. Solerwitz, named only the two former agents, it would have applied to all agents—reportedly about 25—if it had been granted.

Solerwitz, arguing on behalf of former New York special agents Clairborne J. Poche and Philip J. Newpher, said their appearance before a grand jury would have jeopardized national security interests.

But Werker said the contention was unfounded because agents claiming that they had committed burglaries to protect national security had several options.

Justice Department investigators could accept their assertion and allow the agents to remain silent, he said, or the government could go into a private session with the judge and the agents' lawyers to determine whether the national security argument was valid.

If the judge rules in favor of an agent, the agent may remain silent; if not, he would be compelled to testify, Werker said.

He added that The Justice Department could eliminate the need for a closed session by giving the agent immunization to disclose matters that the agent may regard as potentially harmful to national interests. Pottinger pointed out that such im-

munization would be for the act of disclosure only and not for the contents of the disclosure.

Werker also said an agent may be compelled to testify if it can be shown that the Attorney General feels that adequate safeguards have been taken to protect the confidentiality of sensitive disclosures.

Werker said the Justice Department could declassify documents that an agent or his attorneys regard as national security matters, thereby making the question of national security moot.

Pottinger said he does not think that there will be a need to declassify any documents in the case because, he said, no national security interests are involved.

Werker also rejected a motion by Solerwitz to appoint a special prosecutor to head the Justice Department's probe because, the judge said, he had no power to do so.

Solerwitz appealed Werker's ruling and asked for an emergency delay of the grand jury subpoenas pending an outcome of the appeal.

The U.S. Court of Appeals here is expected to rule on Solerwitz's request by 9 a.m. Tuesday.

The burglaries in the New York area were discovered as the result of a lawsuit by the Socialist Workers Party, a Trotskyite group, charging that the FBI and other federal agencies had harassed and committed illegal acts against the party.

The federal judge hearing the suit ordered the FBI to produce every document in its possession relating to the SWP and, in the course of locating these documents, FBI agents found a file in the New York field office containing information about the burglaries.

So far none of the burglaries committed during 1972 and 1973 has been identified as having been directed against the SWP. Justice Department sources have said that most were aimed at organizations and individuals that the FBI thought might have information about fugitive members of the Weather Underground.

Probe of FBI Illegalities Widens

Justice Department investigators have begun searching files of the FBI in at least six major cities in a major effort to expand their probe of illegal bureau practices beyond the New York City area, according to sources close to the case.

One FBI source said that, among other things, the investigators were likely to find evidence that federal agents had used illegal techniques, including burglaries, in their investigation of the Black Panther party in the San Francisco area in recent years.

Although Justice Department lawyers have obtained what one of them said were numerous unconfirmed reports that such techniques had been in relatively common use by FBI intelligence agents around the country, they have thus far found no conclusive evidence of burglaries beyond those that took place in New York between 1971 and 1973.

Mr. Clarence M. Callahan, Director
Federal Bureau of Investigation
Washington, D. C. 20535

Dear Mr. Callahan:

On the evening of October 18th, I received a telephone call at my residence from an individual who identified himself as William Gardner of the Civil Rights Division of the Department of Justice. He indicated that the purpose of his call was to advise me that I would be subpoenaed to testify in the near future before a Federal Grand Jury in Washington, D. C. Mr. Gardner said that the subject of the inquiry was "FBI burglaries and tap jobs" and that I would be expected to testify concerning

I asked Mr. Gardner if he could be more specific, but he declined to provide any additional details. I advised him that I would of course be available for testimony but requested as much advance notice as possible since I have court appearances scheduled through the next two months in connection with my law practice which may conflict with my scheduled appearance before the Grand Jury.

I have consulted with [redacted] (Former SA) and [redacted] of the law firm of [redacted] in Washington, D. C. concerning my appearance and intend to answer all questions truthfully and to the best of my knowledge and recollection during my appearance before the Grand Jury. You may be assured, however, that I will make every effort to refrain from disclosing any specific information of a confidential nature which could prejudice an ongoing FBI investigation.

Very truly yours,

**SURREPTITIOUS ENTRIES
CLASSIFICATION MATTER**

In connection with the Civil Rights Division investigation into surreptitious entries, certain Agents were subpoenaed to appear before a grand jury impaneled in the Southern District of New York and the attorney for these Agents is attempting to quash the subpoenas for various reasons, including the fact that members of the grand jury have not been cleared to receive classified information and the Agents are not able to reveal such classified information pursuant to national security regulations.

Special Agent [redacted] has been subpoenaed to appear before a grand jury in Washington, D. C., on September 3, 1976, and although his attorney attempted to defer his appearance pending resolution of the motion in New York such action was not agreed to by the Civil Rights Division.

[redacted] has advised that because the Weatherman investigation has been held by the Department Review Committee to be a national security investigation, and sources and methods of intelligence related thereto are classifiable, he is requesting that you be asked to resolve the conflict between his subpoena to testify and restrictions imposed by Title 28, CFR, Sections 17.3 and 17.64 and Executive Order 11652. In view of the dilemma and after discussing the matter with his attorney, he has advised he intends to decline to testify and has furnished a copy of the statement he intends to make as the reasons for his declination.

In order that this Bureau may appropriately advise [redacted] and other employees confronted with this situation, I respectfully request your early consideration of this matter.

Reference memorandum of R. E. Long to Mr. Leavitt, 7/13/76, captioned as above. (Copy Attached)

PURPOSE:

To report results of an Intelligence Division (INTD) survey, as requested by Investigation Coordinator, Surreptitious Entry Investigation, concerning filing of forms FD-255.

SYNOPSIS:

Memorandum R. E. Long to Mr. Leavitt, 7/13/76, captioned "Surreptitious Entry Investigation," asked INTD for information as to the filing of forms FD-255 (recommendation for commendations and incentive awards). Survey of all sections, INTD, shows filing of FD-255 dependent on caption used on the form. If employee's name on form, same is filed in employee's personnel file; if captioned with organization, group or individual being investigated, then form is filed in that case file. Division maintains ticklers from inspection to inspection and following inspection tickler folder for prior year is destroyed. Although no definite policy below Division level, most sections and units maintain tickler system showing personnel receiving awards. Individual supervisors, when initiating recommendations or affixing addenda, may retain ticklers.

RECOMMENDATION:

None. For information.

Memorandum to Mr. T. W. Leavitt
Re: SURREPTITIOUS ENTRY INVESTIGATION

DETAILS:

In a memorandum of 7/13/76, R. E. Long, Investigation Coordinator, Surreptitious Entry Investigation, inquired of INTD as to maintenance of forms FD-255 (recommendation for incentives and commendations). The question was asked whether the form is filed in case file in all instances, or filed in a separate file. Request was made to furnish any "list, file, card index system or other records" maintained, formally or otherwise, on matters dealing with incentive awards and commendations for field and headquarters personnel.

The INTD does not maintain a separate file for forms FD-255; however, tickler copies of the FD-255 are kept as shown below:

Division Front Office

Maintains tickler copies of memoranda and forms FD-255 from inspection to inspection. Following an inspection, folder containing letters for the prior year are destroyed. Currently two sections to this file exist: one for 1975, one for 1976. Letters are arranged in file by Section. File is entitled "Letters of Commendation and Incentive Awards Received by Division Five Personnel," and is maintained in Mr. Leavitt's office.

1D-1

Section maintains no tickler system for FD-255s.

1D-2

Section maintains no tickler system for commendations/incentives. FD-255 administratively moves up supervisory chain to Finance and Personnel Division where final approval made, then filed either in employee's personnel folder or substantive case file, depending on caption on FD-255. Individual Unit Chiefs might maintain ticklers on commendations/incentives (for accomplishment purposes); but no policy on this.

Memorandum to Mr. T. W. Leavitt
Re: SURREPTITIOUS ENTRY INVESTIGATION

IS-3

Maintains tickler system similar to that of Division
Front Office, entitled "Personnel-Incentives/Commendations."

CI-1

Maintains list of Headquarters personnel (CI-1) receiving
commendations/incentives by name only. FD-255s usually filed
in substantive case files, and also in personnel file of
employee. To check why commendation/incentive awarded would
necessitate review of personnel or substantive case file.

CI-2

Maintains no section tickler. Individual supervisors,
when affixing addenda to recommendations, may retain ticklers.

CI-3

Maintains tickler, "Personnel Incentives," at Section
level. Depending on caption, FD-255 either goes to employee's
personnel folder or substantive case file. Individual
Supervisors or Unit Chiefs may maintain ticklers on which
they have affixed addenda.

CI-4

Since reopening of CI-4 in 1972, no record of FD-255 has
been maintained in Section. In the event any would be located
they would have been filed in the personnel file of individual
concerned. A tickler folder is maintained in Section showing
personnel receiving incentive awards or commendations. A
Folder and index card system showing Agent and clerical
personnel on foreign assignment who have received incentives/
commendations is maintained in Foreign Liaison Unit of the
CI-4 Section.

MEMORANDUM FOR THE DIRECTOR

0 Civil Rights Division Surreptitious

To assist you in your discussions concerning the matter of *Jurisdiction* for investigation of civil rights allegations, the following listing of *Issues* is drawn from the various memoranda prepared by the Deputy Attorney General, Mr. Pottinger; and James P. Turner, who was acting as Assistant Attorney General, Civil Rights Division.

Issue #1: The Civil Rights Division has investigated FBI activities in New York, Denver, Portland, and Seattle which involve allegations of surreptitious entries and/or other allegations of civil rights violations which may have been committed by FBI employees. It has been indicated by Mr. Pottinger and by Turner's memorandum for the Attorney General (October 19, 1976) that there are additional matters that may be subject to investigation in Washington Field, Boston, Chicago, Los Angeles, San Francisco, Detroit, and San Diego. If the FBI is to undertake an investigation of matters not currently being investigated by the Civil Rights Division, it would be useful for the Civil Rights Division to furnish us with sufficient facts in order to institute a reasonable investigation. This is true in regard to the above-listed field divisions as well as others about which the Civil Rights Division may have information for investigation.

CONTINUED

In view of this, the first issue is whether the Department will furnish the FBI facts on which we may undertake investigations we determine to be appropriate.

Issue #2: The Deputy Attorney General memorandum dated October 26, 1976, distinguished investigations by describing those conducted by the Civil Rights Division as "criminal investigations" and those conducted by the FBI as "administrative inquiries." The memorandum from Turner of the Civil Rights Division appeared to accept the same rationale for distinguishing investigations. Page 3, item 4, of that memorandum indicated that there were other matters of prospective but not present investigative interest to the Civil Rights Division which would not be affected by normal inspection operations of the Bureau. The same paragraph said should any of these matters require the opening of an active investigation the Bureau would be so advised at the time. Thus, Turner appears to assume that criminal investigation would be conducted by the Civil Rights Division whereas administrative inquiries by the inspection operations of the Bureau would be conducted by the FBI.

In view of the above, the second issue is whether the FBI would be authorized to conduct criminal investigations of allegations involving FBI personnel or whether such criminal inquiries would be handled by other elements of the Department leaving only administrative inquiries to be conducted by the FBI.

Issue #3: The third issue is how the matters described above should be resolved. The memoranda indicate that the Deputy Attorney General and the Civil Rights Division have different views as to what office should decide whether the Civil Rights Division will undertake a criminal investigation. Therefore, it may be necessary for that impasse to be broken by a decision by the Attorney General. In the interim, it would be useful to have a meeting with the Deputy Attorney General and Mr. Pottinger in order to clarify their intentions and ~~opns~~. If a satisfactory understanding could be reached, the problem may be solved by confirmation in writing with the Deputy and Mr. Pottinger. If an agreement could not be reached, it may be necessary for you to resolve the matter with the Attorney General.

FROM : W. K. DE BRULER

Civil Rights Division SURREPTITIOUS ENTRY

SUBJECT: SURREPTITIOUS ENTRY INVESTIGATION

Pursuant to your instructions, I telephoned Assistant Attorney General Pottinger for an appointment with a view toward obtaining from Mr. Pottinger the identities of FBI employees, together with necessary information, upon which an appropriate inquiry might be instituted to determine whether administrative action might be warranted against these employees.

Mr. Pottinger requested that we postpone a meeting for the above purpose until the first part of the week commencing December 13.

During the conversation Mr. Pottinger referred to his meeting with you December 6, 1976, wherein it was apparent that there was some confusion on the part of the Deputy Attorney General's Office concerning his (Pottinger's) ability to furnish information of this nature to the FBI. Pottinger said that some time ago he was asked by the Attorney General whether he could advise the FBI as to (1) what the Department could do to enable the Bureau to institute an inquiry which was not under investigation by the Department and (2) what, if anything, could be furnished to the FBI in those situations being investigated by the Department.

Mr. Pottinger advised me that during June, 1976, he was taking a very cautious approach to these investigations and that it was his feeling all along that the FBI ought to take action to the highest degree possible. He said that most of the investigation conducted by him did not involve a level of criminal activity.

He also said that the Attorney General instructed him to take a specific case in question to the Director as an example of what might be done by the Bureau. Pottinger said the Attorney General ordered him to write a letter to the FBI as to what the Bureau could do and not interfere with the ongoing investigation. Pottinger said he learned today that his memorandum prepared in response to the Attorney General's orders was never received by anyone in the FBI.

Pottinger said he was attempting to arrange a meeting with the Attorney General and Deputy Attorney General this afternoon.

Re: Surreptitious Entry Investigation

and/or early 12/8/76 to find out why this memorandum was not sent to the FBI. Pottinger said, of course, it might be that the Attorney General for some reason or another had decided not to send the memorandum.

Pottinger referred to a contact with John Mintz, Legal Counsel, some weeks ago along the lines of determining the identities of Agents who might be subject to administrative action and where Mr. Mintz was attempting to get some type of material for this purpose. He said the memorandum prepared by him for the Attorney General covered the points requested by Mintz.

Mr. Pottinger stated he had been informed by the Director that ADIC DeBruler was to handle this matter and had the Director's complete confidence; therefore, he felt free to advise ADIC DeBruler of the above.

Pottinger said he would furnish information to ADIC DeBruler concerning one specific FBI employee wherein the information obtained by the Department was not as a result of the Federal Grand Jury. He said there were a number of allegations that were third hand and that subsequent inquiry turned out to be "zero." He termed these as the easy matters which required no administrative action and which, in turn, he could see no reason to refer to the FBI because same might get into the files of employees, raise a question when in fact no question really existed. Matters of this nature will, therefore, not be referred to the FBI.

Pottinger also said that only a "handful" of material would be turned over to ADIC DeBruler because there was not that much information of this nature developed. Pottinger said he had instructed the New York Office to prepare an all-inclusive memorandum for him outlining the identities of Bureau personnel and the basis for possible administrative action to reach him by December 10. He said that was the reason why he believed a meeting between him and ADIC DeBruler would be more beneficial during the week of December 13. He said he would telephone DeBruler and arrange a meeting for this purpose.

Pottinger inquired of ADIC DeBruler if he had seen certain memoranda out of his office regarding this case. Pottinger was told that he had not seen them and stated these would be sent to him by DeBruler prior to the anticipated meeting on December 13.

PURPOSE

To advise of results of Inspection Division inquiry concerning surreptitious entries by New York Office in 1972 and 1973.

SYNOPSIS

~~Classified by SP4/1/76-26-23
Exempt from automatic downgrading and
declassification on: OADR
Date of Declassification: 11/1/94~~

As you may recall, information was recently received indicating there had been some surreptitious entries by Bureau personnel assigned to our New York Office in 1972 and 1973. The Department, upon being informed of this, sent a representative to New York who reviewed the pertinent material. Following this review and upon approval of the Department, representatives of the Inspection Division proceeded to New York 5/4/76 and also conducted review, which terminated 5/7/76.

SAC Folders are maintained in the top drawer of a four-drawer locked file cabinet located in the Personnel Files Unit situated outside the office of the ADIC. The top drawer contains 27 volumes covering surreptitious entries by New York from 1954 to the last recorded entry, 4/16/73.

A review of SAC Folder #25 disclosed nine surreptitious entries, seven in 1972, two in 1973. Memoranda recording these entries also disclosed identities of Agents who performed the actual entry, as well as the identities of the Agents on the outside for security purposes. New York files reviewed disclosed seven other entries not identified in this Folder and two possible other entries. No indication on the pertinent memoranda contained in SAC Folder #25 that FBIHQ had been contacted for approval; however, this does not mean that such was not the case. It is not known for sure who in fact approved the entries in New York other than possibly the individual who initialed the block stamp appearing on these memoranda. From files reviewed it appeared that the last entry occurred on 4/18/73.

Re: Surreptitious Entries

~~SECRET~~

In this same file cabinet in drawer #2 there is a Folder marked "SAC Folder (C)." This Folder deals almost exclusively with the obtaining of keys from various sources, with possible intended purpose of utilizing them for surreptitious entries. The first memorandum is dated 2/5/52 and the last 7/14/72

(S)

(S)

Admittedly, there are many unanswered questions that could only be resolved through interview; however, this was not possible since prior to the Inspection Division inquiry the Department conveyed the specific request that no interviews be conducted by the FBI in connection with our review of this material.

On late Monday afternoon, 5/3/76, just prior to Inspection Division's departure to New York, Departmental Attorney Gardner who personally handled review in New York advised Supervisory Special Agent [redacted] Intelligence Division, that as a result of his review he felt strongly that a criminal investigation should be conducted and he would so recommend this action to his superior, Assistant Attorney General Pottinger. He indicated at this point that there were four possible options, they being:

(b)(6)

1. That an outside committee or commission be established to conduct the investigation (he appeared to cast this aside, however).
2. That the Inspection Division of the FBI handle the investigation but that it be headed by a representative of the Department. (He indicated he felt this was the best course of action and probably the one most acceptable to the Bureau.)

3. Recommend that nothing further be done on the basis that the employees involved were acting within the scope of their employment. (He added, however, that this course would be completely unacceptable to him and if such a decision was made he would request he be removed from the case.)

4. That the investigation be handled by a Special Grand Jury.

Gardner did not indicate whether he intended to present these four options to Pottinger but did state that the Bureau should know in a day or two of the Department's decision. To date, no such information has been forthcoming.

Re: Surreptitious Entries

~~SECRET~~

DETAILS:

Information was recently received from our New York Office indicating that there had been some surreptitious entries by Bureau personnel in 1972 and 1973. This information was not previously known to the Bureau. The Department was appropriately informed, and Mr. William L. Gardner, Departmental Attorney, proceeded to New York during the last week in April and reviewed some of the pertinent material. The Bureau, at the request of the Department, held in abeyance any inquiry of our own pending completion of the Department's. They did agree that following their review of the material, they interposed no objection to a similar review by the Bureau. The Department, through Mr. Gardner, did convey the specific request, however, that no interviews be conducted by the FBI in connection with our review of this material.

Upon the instructions of Deputy Associate Director J. B. Adams, with the concurrence of the Director, I proceeded to New York on Tuesday, 5/4/76, accompanied by Inspectors C. E. Price and J. E. Otto. The following constitutes the results of this inquiry, which terminated 5/7/76, 9:15 AM, at New York.

SAC Folders

The SAC Folders of the New York Office are maintained in the top drawer of a four-drawer locked file cabinet located in the Personnel Files Unit situated on the 10th floor outside of the office of the Assistant Director in Charge (ADIC). The label on the outside of the top drawer states "SAC Personnel Folders Sec. 1-." According to the secretary to the ADIC, the SAC Folders have been maintained in this cabinet in this location since September, 1959.

The SAC Folders document surreptitious entries by the New York Office. The Folders individually cover the following periods:

The individual memoranda contained in these Folders are not serialized. It was determined there were approximately 188 memoranda in Folder #9. This would appear to be the average number of items in the other Folders, with the exception of Folder #25, which contains approximately 65 separate memoranda. Each memorandum does not necessarily represent a single surreptitious entry. On the contrary, sometimes one memorandum will pertain to several entries and in other situations there are multiple memoranda concerning one entry.

SAC Folder #25

As noted previously, this Folder contains information regarding surreptitious entries from 7/1/66 - - to the last recorded surreptitious entry by the New York Office. This, of course, is the important Folder and the one which discloses nine surreptitious entries covering portions of the years 1972 and 1973. Xerox copies of these nine memoranda were furnished to the Departmental Attorney who reviewed same in New York.

Xerox copies of these nine memoranda are attached (see Exhibit A). As will be noted, surreptitious entries were conducted on the following dates with locations and informant symbol numbers designated.

Re: Surreptitious Entries

In addition to the surreptitious entries set forth above and as recorded in SAC Folder #25, a review of pertinent files disclosed seven other surreptitious entries by date and symbol number, an eighth by date only, and a ninth which probably took place on an unknown date.

~~SECRET~~

With regard to [REDACTED] additional entries noted are as follows:

12/15/72
2/13/73
2/24/73

With regard to [REDACTED] additional entries noted are as follows:

3/10/72
6/27/72

With regard to [REDACTED] the following additional entries were detected:

4/18/73
3/27/73

Moreover, it was also determined that on a New York communication of 10/20/72 reference was made to the development on 10/19/72 of a highly sensitive anonymous source at [REDACTED] Brooklyn, New York. It is possible that this contact was actually a forerunner of the establishment of [REDACTED] on 12/11/72. This is based on the fact that the subject of these entries, [REDACTED] fugitive Bernardine Rae Dohrn, moved from the [REDACTED] address to the [REDACTED] address sometime probably in October, 1972. Also, in a New York communication of 11/14/72 reference was made of a highly sensitive anonymous source at this address [REDACTED]. Supporting documents relative to these additional contacts are marked as Exhibit B.

A review of pertinent files in New York failed to disclose any other additional entries.

With regard to the nine entries listed in SAC Folder #25, as can be seen, each memorandum identifies the inside crew as well as those Agents who were outside for security and surveillance purposes. In the past, in the 1950s and 1960s, the majority of the memoranda covering surreptitious entries

showed the authorizing authority for same at FBIHQ. As noted, these nine do not show whether any authority had been received from FBIHQ. It is possible that the New York official whose initial appears in the block stamp on each of these memoranda may have been the approving authority; however, this is merely speculative and is not known to be a fact. It has been determined with a relatively high degree of certainty that the initials appearing in the block stamp on those memoranda relating to entries on 3/7/72, 3/23/72 and 4/4/72 are those of former Supervisor [REDACTED] EOD 7/7/47, retired 6/20/72.

There is no initial in the block stamp of the memorandum regarding the entry on 6/5/72, but the initial at the top right is that of former [REDACTED] now retired. His initial also appears in the block stamp regarding the entry of 6/12/72. [REDACTED] initials appear in the block stamp for the entries of 12/11 and 20/72. The identity of the individual initialing the block stamp for the entry of 2/14/73 is not known. [REDACTED] now retired, is the approving official in the block stamp regarding the entry of 4/16/73.

6(2)
7(6)
In connection with the surreptitious entries at [REDACTED] it is noted that Attorney General authority had been received to install both a tesur and a misur at that address, the then residence of [REDACTED] tesur was instituted on 2/4/72 (with no entry involved), whereas the misur was installed on 3/7/72. For purposes of clarity, Bureau records will probably disclose that the misur was installed on 3/8/72; however, this appears to be an error. New York submitted a teletype dated 3/8/72 with the comment that the misur survey was completed this date at [REDACTED] The file copy of this teletype, however, carries the date of 3/7/72, which indicates that the misur was established on this latter date. Both the tesur and the misur ceased operation on 6/19/72 in accordance with Bureau teletype instructions of that date. The misur itself was physically removed on 7/5/72.

Bulky Exhibits Maintained in File of [REDACTED]

The file [REDACTED] received the closest scrutiny by Departmental Attorney Gardner and understandably so since the majority of the aforementioned surreptitious entries were conducted at residences occupied by her. Mr. Gardner, in reviewing the bulky exhibits pertinent to this file,

~~SECRET~~

Memo to Mr. Callahan
Re: Surreptitious Entries

~~SECRET~~

noted to the Agent who was serving in a liaison capacity with him that some of the bulky exhibits were missing. This is correct. In all, there were nine exhibits unaccounted for and no notation made on the green sheet as to their disposition. It is possible, however, that some of this material was sent to the FBI Laboratory and not returned following processing. Nevertheless, it was explained in New York that under ordinary procedures material photographed would be processed in New York and negatives would be maintained in the actual pertinent bulky exhibit. For record purposes the following exhibits were missing:

4 (2)
4 (3)
7 (C)

1B3 (1) - 5/16/72	Negative of photos taken on 4/4/72. Received on 4/4/72 by SA [REDACTED]
1B3 (6) - 7/6/72	Two rolls of negatives. Received 5/5/72 by SA [REDACTED]
1B3 (7) - 7/6/72	Two rolls of negatives. Received 6/12/72 by SA [REDACTED]
1B3 (10) - 1/11/73	Three rolls of negatives taken at [REDACTED] Brooklyn, New York. Received 12/15/72 by SA [REDACTED]
1B3 (12) - 2/21/73	Two rolls of negatives received 2/13/73 SA [REDACTED]
1B2 (4) - 5/16/72	One negative of seven photos of subject taken on 9/18/71.
1B2 (8) - 5/16/72	Negative of photos taken of subject.
1B2 (9) - 5/16/72	Two rolls of negatives from [REDACTED]
1B2 (11) - 5/16/72	Roll of film. Negative from [REDACTED] at [REDACTED]

As can be seen by the description of the [REDACTED] material, some of the exhibits apparently were obtained as the result of surreptitious entries. Assuming that the descriptive data relative to each exhibit is accurate, there is a possibility that 1B3 (6) conceivably could be another surreptitious entry not accounted for in our review of the files.

Another enclosure discloses what appears to be a large number of keys obtained 11/29/71 relative to the building then occupied by the VVAW. There is no indication in this memorandum as to where these keys were placed.

Another enclosure discloses that a key was obtained on 11/29/71, again pertaining to the VVAW, and was maintained on hook #20 of the Tel-Kee cabinet.

Another enclosure discloses obtaining a key on 12/14/71 regarding [REDACTED] which was maintained on hook #21 of the Tel-Kee cabinet.

The last enclosure shows that a survey of keys in the above Tel-Kee cabinet was made in July, 1972, and those keys no longer of value were destroyed.

The Tel-Kee cabinet maintained by the SAC of the Security Division was examined by Mr. Gardner and according to information received by the Inspection Division from pertinent personnel, he was satisfied that the aforementioned keys were not maintained as indicated. In fact, all of the keys now maintained are pertinent solely to the New York Office itself.

Miscellaneous

As noted previously, the last surreptitious entry detected occurred on 4/18/73. At least insofar [REDACTED] concerned it would appear that April, 1973, was the last month of such contact. This is based on the following:

4/2) In reviewing this file, periodically it was noted that the case Agent prepared a handwritten memorandum to the file setting forth the date that physical surveillances had been conducted [REDACTED] residence. In each instance mention was also made of recontacts or attempted contacts with [REDACTED] (the symbol number designated for surreptitious entry to [REDACTED] residence at her [REDACTED] address). However, beginning in May, 1973, and thereafter, such handwritten memoranda contain no reference whatsoever to this informant, but merely made mention of the dates that physical surveillances had been conducted.

b1(2)
7/10)

There was one memorandum in this file that upon first glance would indicate that surreptitious entries had been made through 1973; however, it is felt that it was merely a choice of words. Specifically, by airtel of 1/24/74 from New York to the Director, New York was taking the position that [REDACTED] would not be productive. As part of their justification for taking this position their communication stated in part the following: "New York investigation over the past three years concerning clandestine methods of communications utilized [REDACTED] disclosed that she has received 'drop mail' on a few occasions. The so-called 'drop' would be identified, if at all, on the letter itself [REDACTED] and [REDACTED] have so advised." The first two informants were symbol numbers designated for surreptitious entries at the residences of [REDACTED] the last was the symbol number designated for a residence in which she previously resided.

Admittedly, there are many unanswered questions that could only be resolved through interview; however, as indicated previously, this was not possible since the Department conveyed the specific request that no interviews be conducted by the FBI in connection with the Inspection Division review of the foregoing material.

b1(6)

On late Monday afternoon, 5/3/76, just prior to Inspection Division's departure to New York, Departmental Attorney Gardner, who personally handled review in New York, advised Supervisory Special Agent [REDACTED] Intelligence Division, that as a result of his review he felt strongly that a criminal investigation should be conducted and he would so recommend this action to his superior, Assistant Attorney General Pottinger. He indicated at this point that there were four possible options, they being:

1. That an outside committee or commission be established to conduct the investigation (he appeared to cast this aside, however).
2. That the Inspection Division of the FBI handle the investigation but that it be headed by a representative of the Department. (He indicated he felt this was the best course of action and probably the one most acceptable to the Bureau.)
3. Recommend that nothing further be done on the basis that the employees involved were acting within the scope of their employment. (He

added, however, that this course would be completely unacceptable to him and if such a decision was made he would request he be removed from the case.)

4. That the investigation be handled by a Special Grand Jury.

Gardner did not indicate whether he intended to present these four options to Pottinger but did state that the Bureau should know in a day or two of the Department's decision. To date no such information has been forthcoming.

In connection with captioned matter, it is to be noted that from the approximate period of September, 1972, to June, 1974, I served as Inspector - Executive Assistant to the Associate Director. In that capacity I seem to recall that on occasion I initialed some communications which undoubtedly involved surreptitious entries since they had to do with the installation of technical equipment. I can state, however, that I have no recollection whatsoever as to whether these entries were made prior to Attorney General approval of the installation or subsequent to Attorney General approval of the installation. It is my recollection, however, that all of these communications were being sent to the Attorney General. I also want to state that I have no recollection as to what office was involved nor the individuals involved. Other than the above, I have no knowledge of any break-ins or surreptitious entries performed by Bureau Agents or by others with prior or subsequent knowledge of Bureau Agents since January 1, 1966.

PURPOSE

To comply with request of Assistant Attorney General, Civil Rights Division, for personal statements regarding knowledge of break-ins or surreptitious entries since January 1, 1966.

DETAILS:

By memorandum January 20, 1976, from the Assistant Attorney General, Civil Rights Division, to the Director, captioned "Surreptitious Entries," he requested personal statements concerning complete and full knowledge of any and all break-ins or surreptitious entries performed by Bureau Agents or by others with prior or subsequent knowledge by Bureau Agents since January 1, 1966.

I have no personal knowledge of any break-ins or surreptitious entries performed by Bureau Agents or by anyone else since January 1, 1966. I have no hearsay knowledge of any such entries other than that which may have been gained by review of information being forwarded to the Department.

RECOMMENDATION:

That this memorandum be forwarded to the Intelligence Division IS-3, for the preparation of an appropriate response to the Assistant Attorney General, Civil Rights Division.

SUBJECT: SURREPTITIOUS ENTRIES

In response to the request of the Assistant Attorney General, Civil Rights Division, for personal statements regarding knowledge of break-ins or surreptitious entries since January 1, 1966, I wish to state the following:

I have no personal knowledge of any break-ins or surreptitious entries performed by Bureau Agents or others with prior or subsequent knowledge by Bureau Agents since January 1, 1966, other than knowledge contained in correspondence to the Department of Justice which I had occasion to review in my official capacity prior to transmittal to the Department of Justice.

In connection with the installation of electronic surveillance equipment for electronic surveillance activity authorized by the Attorney General, I was aware that surreptitious entry may or may not have been performed to effect the installation. I have no knowledge of any specific case wherein surreptitious entry was in fact necessary for installation of such equipment.

CONCERNING SURREPTITIOUS ENTRIES

Reference is made to memorandum T.W. Leavitt to Mr. J.B. Adams dated 3/16/76, captioned "Surreptitious Entries."

As a result of my assignment at FBIHQ, through the review of various material, the only recollection I have concerning surreptitious entries involve one such entry that was conducted in New Orleans, Louisiana, I believe, in 1966 regarding the Ku Klux Klan. It is my recollection that this entry took place in a hotel and that copies of certain Klan records were obtained as a result of this entry. I had no personal involvement in this matter.

This is in reference to a memorandum T. W. Leavitt to Mr. J. B. Adams dated 3/16/76, captioned as above, in which it was recommended and approved that pursuant to the request of the Civil Rights Division, Department of Justice, Headquarters personnel, Section Chief and higher, are requested to submit a memorandum as to their knowledge of surreptitious entries since January 1, 1966.

This is to advise you that the phrase "surreptitious entry" first came to my attention while employed as a Special Agent of the Washington Field Office sometime during the period 1960-1961. This occurred during a conversation in which I was engaged with several other Agents whose identities I cannot recall at this time, involving the descriptive words "bag job." At that time, in response to an inquiry raised by me as to what connotations "bag job" had, it was explained that this involved a surreptitious entry

[REDACTED] (c)

Aside from various documents coming across my desk and which I read in connection with my responsibilities as the Deputy Assistant Director Legal Counsel Division, I recall no other information pertaining to surreptitious entries.

I cannot recall at this time any information concerning surreptitious entries made by FBI personnel since 1966. It should be noted that during the period of April 16, 1972, to January 4, 1975, I was the Special Agent in Charge of the Buffalo Division of the FBI. During that time we utilized court approved Title III installations on a number of occasions. I do not recall whether or not any of these involved surreptitious entries.
