SURREPTITIOUS ENTRIES

Reference is made to your letter of August 19, 1975, in which you requested information concerning surreptitious entries conducted by the FBI since January 1, 1966.

Enclosed is the original and one copy of a memorandum dated October 16, 1975, listing surreptitious entries since January 1, 1966, in connection with the installation of authorized microphone surveillance.

You will note that in Category 8, relating to the identity of personnel recommending, approving, and participating in an entry, we have not furnished the identities of personnel. All entries cited in the enclosure were conducted pursuant to an authorization by the Attorney General for microphone surveillance. We believe that the information which we have furnished with respect to this question will permit a general preliminary assessment of the propriety of these activities. Should you later require the identities of participating personnel to fully evaluate specific cases, we will, of course, provide such data to you.

A separate memorandum, relating to entries conducted to survey the feasibility of microphone installation and installation prior to authority of the Attorney General, is being prepared and will include, where available, the identities of personnel involved.

Re: Surreptitious Entries

The FBI has conducted surreptitious entries in connection with the installation of authorized electronic surveillance. When a Special Agent in Charge (SAC) of a field office considers electronic surveillance necessary to the conduct of an investigation, a recommendation is made to FBI Headquarters (FBIHQ) for use of this technique. On concurrence of FBIHQ, the request for authority to install the surveillance is referred to the Attorney General. If authorized by the Attorney General, the field office is so advised and instructed by FBIHQ to install the electronic device, report to FBIHQ the date and time of activation of the device, and justify at a specified interval the need for continuation of the surveillance. When the surveillance is discontinued, FBIHQ is notified of this action as is the Attorney General.

Re: Surreptitious Entries

(610) From 1942 to April, 1968, surreptitious entry was utilized by the FBI on a highly selective basis in the conduct of certain investigations. Available records and recollection of Special Agents at FBI Headquarters (FBIHQ) identify the targets of surreptitious entries as domestic subversive and white hate groups.

When a Special Agent in Charge (SAC) of a field office considered surreptitious entry necessary to the conduct of an investigation, he would make his request to the appropriate Assistant Director at FBIHQ, justifying the need for an entry and assuring it could be accomplished safely with full security. A memorandum outlining the facts of the request was prepared for approval of Mr. Hoover, or Mr. Tolson, the Associate Director. Subsequently, the memorandum was filed in the Assistant Director's office under a "Do Not File" procedure, and thereafter destroyed. X

There is no central index, file, or document listing surreptitious entries conducted against domestic targets. To reconstruct these activities, it is necessary to rely upon recollections of Special Agents who have knowledge of such activities, and review of those files identified by recollection as being targets of surreptitious entries. Since policies and procedures followed in reporting of information resulting from a surreptitious entry were designed to conceal the activity from persons not having a need to know, information contained in FBI files relating to entries is in most instances incomplete and difficult to identify. X

Re: Surreptitious Entries

ALL (LX1)

Reconstruction of instances of surreptitious entry through review of files and recollections of Special Agent personnel at FBIHQ, show the following entries since 1942:

(C)

Re: Surreptitious Entries

~~CONFIDENTIAL~~

16. Young Socialist Alliance, New York City. At least twelve entries, national and local offices, September, 1964, to July, 1966. (X)
17. National Committee to Aid Bloomington Students, Young Socialist Alliance, New York City. At least seven entries from September, 1964, to July, 1966. (X)

White Hate Group

1. United Klans of America, Monroe, Louisiana. One entry in March, 1966. (X)

A review of the above matters, together with recollections of Special Agent personnel at FBIHQ, has resulted in reconstruction of instances of surreptitious entry which are detailed in the following pages. These entries were conducted subsequent to January 1, 1966. It is noted that information concerning the identities of authorities at FBIHQ who approved entries was obtained from the files of our field offices. In this regard, the approving authority at FBIHQ as listed in each entry is the individual who called the field office to advise the activity was authorized. It is not known and cannot be determined from available records whether the individual who called the field office was the official who actually authorized the entry, or whether the authorization was made by an official other than the caller. SURREPTITIOUS ENTRY

Re Bureau teletype to WFO, 10/15/75.

Responses to questions in referenced teletype appear below. It should be noted that each installation requires a survey and in those instances where they were done the same date or simultaneously, the authority permitted survey and installation, if feasible, at the same time. The date of installation is the date installation was completed and no entry made after that date. In number 4 below, entry extended over approximately four weeks time, but installation was not considered complete until external circuits were in and the whole installation was operable.

SURREPTITIOUS ENTRIES

Reference is made to your memorandum of October 24, 1975, in which you raised certain questions as to the accuracy of information reported by the FBI in memoranda of July 25, 1975, and October 17, 1975, concerning surreptitious entries in domestic security investigations. *per 37*

Our memorandum of October 17, 1975, stated that the FBI engaged in 238 surreptitious entries in domestic security investigations, a figure established through recollection of Special Agent personnel at FBI Headquarters and review of certain files of the Internal Security Division, New York Office. In a later memorandum dated October 23, 1975, *per 3777* entitled "Surreptitious Entries," and furnished to Mr. J. Stanley Pottinger, Assistant Attorney General, Civil Rights Division, we reported that these 238 entries were made against at least fourteen domestic subversive targets. In addition, we noted that at least three domestic subversive targets were the subject of numerous entries from October, 1952, to June, 1966.

Since preparation of the July 25 memorandum, and as a result of further review of records at FBI Headquarters (FBIHQ) and in the field, we have identified seven domestic targets in addition to those reported previously. ENCLOSURE

Referenced AAG memorandum of 8/19/75, requested information regarding entries since 1/1/66. By memorandum of 10/16/75, we furnished AAG a list of microphone installations, and feasibility surveys made at same time as installation, which were made subsequent to our receipt of AG authority to conduct a microphone surveillance. We advised AAG in the 10/16/75 memorandum that inasmuch as installation and survey entries occurred subsequent to AG authority we were not, at that time, furnishing identities of personnel involved. We also advised AAG that a separate memorandum, relating to surveys and installations conducted prior to AG authority, would be prepared including, where available, identities of personnel involved. Enclosure represents surveys conducted independent of and before installation, and prior to AG authority for microphone surveillance. In addition, included are two instances of microphone installation made prior to AG authority.

Re: Surreptitious Entries

When a Special Agent in Charge (SAC) of a field office considers electronic surveillance necessary and justified in the conduct of an investigation, a recommendation is made to FBI Headquarters (FBIHQ) that a survey be conducted to determine the feasibility of installation of the surveillance. Prior to September, 1974, feasibility surveys, some of which involved trespass, were authorized by FBIHQ. In some instances, surveys involved surreptitious entry; however, not all surveys necessitated physical entry or trespass. In many cases, survey and installation were effected at the same time to avoid additional entry and to insure greater security to the operation. Where installations were made prior to authority of the Attorney General, activation of electronic devices was not effected until the Attorney General authorized the surveillance.

Since September, 1974, the FBI has followed a policy of requesting authority of the Attorney General to conduct feasibility surveys in cases where trespass is necessary to effect the survey.

Following is a list of surreptitious entries in connection with feasibility surveys and microphone installations which were made prior to authorization of the Attorney General:

It is the Legal Counsel Division's judgment that limited access to our files should be made available to Departmental attorneys to review these files at FBI Headquarters. In those situations in which a copy of the pertinent field office file is not also filed at Headquarters, it is suggested that consideration be given to having the field furnish a copy of the pertinent record to FBI Headquarters. In this manner a centralized coordination of access to our files can be maintained. Precedent to such action has already been set in connection with Departmental attorneys reviewing our files in connection with Freedom of Information Act appeals.

Since preparation of my October 23 memorandum, we have located in our files evidence of an October 27, 1963, entry into the offices of the Fair Play for Cuba Committee (FPCC), New York City. The FPCC was a pro-Castro group whose aims included promotion of "the truth about revolutionary Cuba," and which, through two of its organizers, obtained funds from the Cuban Government to support certain aspects of the group's operations. A review of pertinent records has shown the following with respect to this entry:

DEC 5 1975

Our New York Office advised on October 4, 1963, that plans had been made to conduct an October 27 entry into FPCC offices.

New York's file shows a memorandum was prepared by Special Agent (SA) [redacted] requesting approval to conduct the entry, and that approval was given by Assistant Special Agent in Charge (ASAC) Joseph Schmit. Although there is no indication approval was sought and obtained on a higher level than ASAC Schmit, the usual procedure dictated approval would be granted by FBIHQ.

Reference 11/20/75 memorandum, F. J. Cassidy to Mr. W. R. Wannall, captioned as above, concerning request of Assistant Attorney General J. Stanley Pottinger, Civil Rights Division, to review FBIHQ and field office files in the [redacted] and [redacted] matters.

This is to advise of a December 2 conversation between Mr. William L. Gardner, Civil Rights Division, and [redacted] Intelligence Division (INTD).

On December 2, Mr. Gardner indicated the Department's Civil Rights Division would like to begin review of the materials noted in the Pottinger memorandum of 11/11/75 (copy furnished with referenced 11/20/75 memorandum). The Departmental review will take place at a yet undesignated location within FBIHQ, possibly Room 4171, where Senate and House Select Committee staff personnel have conducted reviews in the past. It is desired that review begin on or about December 8 or 9, 1975. For the present, review will be limited to FBIHQ files and, as noted in the Pottinger memorandum, "any and all information, materials, documents, etc., physically maintained by the Bureau, whether in files or not, pertaining to the entries..."; however, if necessary, field office files may be reviewed, possibly at the field office, by representatives of the Civil Rights Division.

The Legal Counsel Division has advised that Departmental attorneys should have limited access to our files at FBIHQ, and further, where pertinent documents are not included in the FBIHQ file but are located in the field, copies might be forwarded from the appropriate field office.

By memorandum of November 14, captioned as above, we furnished to the Department at their request certain information concerning entries conducted (in cases handled by the Intelligence Division) in connection with installation of electronic surveillances. The Civil Rights Division has now requested to review six matters detailed in that November 14 memorandum. Those cases are noted on the attachment for Sections CI-1 and CI-3, INTD. Mr. Pottinger's request asks for FBIHQ and field office files, as well as any material in file or not relating specifically to the entries. *PR. 3783*

On December 2, Mr. William Gardner, Civil Rights Division, indicated the review would be confined for the present to files at FBIHQ; however, if necessary, arrangements would be made to review appropriate files in the field offices, or review documents transmitted to FBIHQ from the field. *62-117166-461*

The Department would like to begin its review of the six matters noted in the attachment at the earliest opportunity. Accordingly, arrangements should be made to obtain and review files as expeditiously as possible. *REC-29 66-8160-379*

Items 20 through 23 of Pottinger's request apply in part to entries conducted in connection with electronic surveillance installations pursuant to Title III. Those questions will, therefore, be applicable to policies and procedures of the General and Special Investigative Divisions.

In connection with our search of files and records in response to your inquiry into the Martin Luther King, Jr., matter, we have recently discovered a domestic target of surreptitious entry in addition to those reported in our memorandum of October 23. We are bringing this matter to your attention for whatever action is required by the Department.

Files of our New York Office show that during the period October 24, 1954, to January 21, 1964, there were 29 entries into the business office of [redacted]. Our records also show a March 27, 1965, entry into another office of [redacted].

At this time, we are taking no action to obtain further information concerning these entries since your request of August 19 asked for details on entries conducted since January 1, 1966. Complete details of these entries will, of course, be available to you in connection with your current inquiries into the Martin Luther King, Jr., matter.

Reference is made to the memorandum of F. J. Cassidy to W. R. Wannall dated December 8, 1975, and my memorandum to you dated August 21, 1975, both captioned as above.

Referenced memorandum of August 21, 1975, contained a review of all surreptitious entries supervised by the Special Investigative Division since 1966. Ninety-one such entries were detailed, all of which were conducted under the provisions of Title III of the Omnibus Crime Control and Safe Streets Act of 1968 for the purpose of installing electronic devices for the interception of oral communications.

Question 20 contained in the request from J. Stanley Pottinger dated December 2, 1975, and attached to Mr. Cassidy's referenced memorandum, requested all written memoranda, guidelines, procedures, etc., authorizing surreptitious entries and break-ins which have been in effect since 1970. The Special Investigative Division has issued no such instructions inasmuch as all entries since 1970 have been conducted under the provisions of Title III of the Omnibus Crime Control and Safe Streets Act of 1968. As stated in my memorandum of August 21, 1975, all entries were made for the purpose of installing electronic devices and no entries were made prior to the issuance of a court order. The Title III process is a joint effort between the local United States Attorneys, or the Strike Force Attorneys, and FBI personnel and all procedures relative to installing these devices are prescribed by law and are monitored by the local United States Attorney or Strike Force Attorney.

F. J. Cassidy to Mr. Wannall memorandum dated 12/8/75, attached, requests General Investigative Division (GID) review Departmental letter from J. Stanley Pottinger dated 12/2/75 in connection with electronic surveillance installations, pursuant to Title III. The memorandum requests we furnish appropriate responses to the Intelligence Division in connection with items 20 - 23 of Pottinger's letter. In attached R. J. McCarthy to Mr. Cleveland memorandum dated 8/21/75, the Special Investigative Division (SID) advised that from January, 1966, up to that time, there had been six surreptitious entries conducted in connection with investigations handled by GID. All of these entries were under authority of court order in accordance with Title III of the Omnibus Crime Control and Safe Streets Act of 1968, and were undertaken for the purpose of installing electronic devices for the interception of oral communications. In each instance, at the conclusion of the court-authorized period of interception, a second entry was made for the purpose of retrieving the electronic device. Since the 8/21/75 memorandum, one additional surreptitious entry was conducted in accordance with Title III in Kansas City, Missouri, based on court order dated 10/23/75, with installation 10/23/75 and date of discontinuance 11/12/75. Renewal for this interception was granted by court order 11/26/75, interception commenced 11/26/75 and was discontinued 12/10/75. The location in both instances was the same and the nature of the premise was business.

Question 20 of Mr. Pottinger's memorandum requests all written memoranda, guidelines, procedures, instructions or documents which outline the policies and procedures respecting authorization by Bureau officials for Agents to conduct surreptitious entries, break-ins, or physical intrusions into premises since 1970. GID has issued no such instructions, inasmuch as each entry since 1970 has been conducted under the provisions of Title III of the

Omnibus Crime Control and Safe Streets Act of 1968. All entries in the above instances were in accordance with this Federal Statute. GID notes Title III is a cooperative effort between local U. S. Attorneys' Offices or Strike Force Attorneys, and is carried out in strict compliance with provisions established under this Federal Statute.

Question 21 requests list of surreptitious entries conducted by Bureau personnel for installation of microphone or listening devices since 1970 when Attorney General permission for the installation was denied. In each instance of a request from the Field for installation of electronic devices in accordance with Title III installation, each application is thoroughly reviewed for sufficiency and forwarded to the Department of Justice requesting approval. In some instances, a time lag occurs and the current nature of probable cause on which affidavit is based needs updating. Therefore, applications for Title III, dealing with installation of electronic devices, are either approved by the Department or returned to develop more probable cause. GID does not maintain a record of instances where permission to install listening devices is denied by the Attorney General. However, no authorization is given in any instance by GID to enter premises prior to a specific, positive decision by the Attorney General and the obtaining of an appropriate court order.

Question 22 asked us to furnish a list of all surveys (entries made to survey the feasibility of installation of a microphone or other surveillance) made since 1970 involving entry which did not result in the Bureau's requesting permission of the Attorney General. No entries are known to have been made prior to court order to conduct surveys in connection with any Title III installation supervised by GID. In each instance where installation of microphone was carried out, entry was not conducted until issuance of specific court order.

Question 23 requests copies of all written memoranda, documents, instructions, guidelines or procedures governing the procedures and policies to be followed when

Bureau officials authorize Agents to conduct entries. GID has issued no written or oral instructions to the Field in regard to surreptitious entries in connection with Title III microphones. The only procedures followed are those specifically described by law and monitored by local U. S. Attorneys or Strike Force Attorneys, and are based on court orders.

To recommend that FBIHQ Supervisor [redacted] be authorized to travel to the New York Office in connection with a Departmental review of certain files within that Division.

Memorandum F. J. Cassidy to Mr. W. R. Wannall, December 8, 1975, entitled "Surreptitious Entries," advised of the Civil Rights Division's pending review of certain files concerning matters wherein surreptitious entries were conducted by the FBI. Copy of this memorandum attached for information.

Also attached is a self-explanatory copy of a December 2, 1975, letter from J. Stanley Pottinger, Civil Rights Division, requesting information and materials relating to case files wherein surreptitious entries were conducted. In connection with the Civil Rights Division's current review of files at FBIHQ, Mr. William L. Gardner, Departmental Attorney, advised on January 12, 1976, that he would like to review New York file 65-25653 (Bureau 65-74117) at the New York Office, beginning on January 21, 1976.

Mr. Gardner recently reviewed Bureau file 65-74117 at FBIHQ, under the guidance and with the counsel of Supervisor [redacted]. In view of Supervisor [redacted] familiarity with this file, and his previous coordination with Mr. Gardner, it is suggested that [redacted] travel to the New York Office to prepare the file there for Departmental review. Inasmuch as the field office file will be much more extensive than the file at FBIHQ, it is believed prior review by Supervisor [redacted] will serve to avoid possible disclosure or compromise of the identities of especially sensitive sources mentioned in the file.

Re: Surreptitious Entries

Mr. Gardner has advised that at the present time no interviews of personnel involved in any entries are expected to be conducted.

It is being suggested that Supervisor [redacted] travel to the New York Office on January 20, 1976, allowing sufficient time to review this file. It is further suggested that [redacted] remain with Mr. Gardner during the review to insure availability for consultation.

RECOMMENDATION:

1. That Supervisor [redacted] CI-1 Section, be authorized to travel to the New York Office on January 20, 1976, to prepare New York file for Departmental review on the following day, and further, that [redacted] remain with the Department's representative during the review.

2. If approved, the attached airtel, advising New York of the pending review, be sent.

On January 14, 1976 [redacted] advised Mr. Gardner that FBIHQ contemplated sending Supervisor [redacted] to the New York Office, one day in advance of Mr. Gardner's visit, so that [redacted] might review the New York file to insure against possible disclosure of the identities of sensitive sources mentioned therein (such as [redacted]). Mr. Gardner expressed no objection to our contemplated course of action.

Mr. Gardner has been advised that he will be made aware, during his review, of the nature and reason for any deletions or excisions. This is the practice followed during Gardner's review of files at FBIHQ over the past several weeks.
